

## Funding of ES&H Requirements

Principal Investigators must incorporate appropriate resource allocation for ES&H concerns in all research proposals, including the cost of safety equipment, permits, training, maintenance, waste disposal, and facilities modifications, unless covered by institutional funding sources.

### ATAP Resources

To facilitate implementation and execution of the Division ES&H Program, the following Division resources are made available:

Time	Function	Description
0.2	Deputy Division Director for Operations	Approximately 1 day per month: <ul style="list-style-type: none"><li>• supervising the ES&amp;H Coordinator,</li><li>• participating in ES&amp;H Operations Committee</li><li>• coordinating safety policy with Division Management</li></ul>
1.0	Division ES&H Coordinator	Includes: <ul style="list-style-type: none"><li>• approximately 1 day per month in support of Safety Advisory Committee,</li><li>• 2 days per month on average on building management, space, property and export coordination</li><li>• Electrical Safety Advocate role and representation on the Electrical Safety Committee</li></ul>
0.4	Safety Committee Representatives	≤1 day per month performing duties as ATAP Representative to the LBNL Safety Advisory Committee, Radiation Safety Committee, Laser Safety Committee, Traffic and Pedestrian Safety Subcommittee and Laboratory Safety Committee
0.1	Ergo Advocates	2 people perform ergo evaluations and provide info

ES&H efforts are an integral part of all ATAP activities and are performed by all ATAP personnel as needed and appropriate to the job task. The estimated level of effort is anticipated to include, but is not limited to:

≥ 4 hr/Program /month Program ES&H Coordinator duties

≤ 8 hr/employee/year Safety Day/Week participation

The following additional resources are needed for Electrical Safety:

Time	Function	Description
16 hrs/mo	LOTO Procedure Reviews	Performed by Engineering and/or EHS Division Electrical Safety Officers
